

NADLE YOUR IQ™

Noodle: (v.) to play • to toy • to learn

ANGEL FISH

INSTRUCTIONS:

Carefully press a piece out of the plywood sheets.

Smooth the edges with the sandpaper and return the piece back to its corresponding space. Continue this step with all the pieces.

After sanding preparation, use the diagram on the right as reference while constructing your 3-D Wood Puzzle. Pieces are numbered for your reference.

Part 1 will attach to part 1, part 2 will attach to part 2 and so on. Using the photo as reference will also help during assembly.

If joints are too tight, do not force the pieces together. Simply use the sandpaper to loosen the fit.

ASSEMBLED DIMENSIONS: 10.5 x 4 x 11
