

## DISCOVERY BAY GAMES LLC

### Famous Name Us

4+ players or teams • Ages 8+

#### Object:

Players draw 2 card sets per round containing 8 puzzles. Teams take turns solving their puzzles. 1 team member reads the clues and teammates try to guess the name of the famous person or group described. The fewer clues needed to guess the answer, the higher the score earned. All clues start out very general (worth **20 points**) and get more specific (**15 points, 10 points, 5 points**) as players move through to the last and most specific clue worth the least number of points. If all 4 clues have been read and the team still has not guessed the answer to the puzzle no score is earned and play moves on to the next puzzle. The round continues until each team has gone through all 8 puzzles on the two cards drawn and scores have been tallied. A new reader for each team now draws 2 more cards and play begins again for another round. Be the first team to earn 300 points and win the game!

#### Game Contents

132 Puzzle Cards with a total of 528 puzzles.

1 Puzzle Card Draw Box

#### Setup:

1. Shuffle the Puzzle Cards and place them in the draw box in the center of play.
2. Form teams consisting of at least two people per team.

#### Playing the Game:

1. Choose a team to begin the first round.
2. Each team chooses a player to be the first Reader for the round.
3. Teams take turns, with each team going through all 8 puzzles drawn per turn per round.
4. Play moves clockwise.
5. Begin reading the Puzzle Card clues starting at **20 points** on top of the list (most general). Move down to **15 point** clue next, then to **10 point** clue, and last of all to the most specific clue worth only **5 points**.
6. Reader notes each score earned on the score pad. If players guess on the 1<sup>st</sup> clue, it's worth **20 points**. If a correct guess comes on the second clue, the score earned is **15 points**. If players don't guess until the last clue, the score is **5 points**.
7. If your team guesses correctly or all 4 clues are read without a correct guess, move to the second puzzle on the card. If that puzzle is also guessed correctly or all 4 clues are read with no correct guess, turn the card over and read the first puzzle on that side and then the next puzzle until all puzzles on both cards drawn for the round have been played.
8. One guess per team member per clue given. No stalling allowed!
9. Once all four puzzles have been played, place the Puzzle Card down nearby and read from a new one.

10. Play continues as above until each team has gone through all 8 Puzzles on the Puzzle Cards to end the round.
11. A round is complete after each team has been through both Puzzle Cards drawn.
12. Next round the role of Reader moves to another player or in the case of a 2-person team the Reader and Player switch rolls and begin the new round. Play continues as above.

**Scoring the Round:**

1. At the end of each round, tally each team's score for round totals.
2. At this time, used Puzzle Cards are placed at the **Discard Here** side of the card box.

**Winning the Game:**

The first team to earn 300 points wins!
