

Objective: Release one ring from the puzzle.

Too difficult?

Take a hint from the solution below.

**To Separate:**

1. Start from point 1 position.
2. Align point 1 and point 2, so that ring 1 cuts into ring 2. Pass the ring through the triangle gate, with Point 1 aligning the red marked gap in arrow pointed direction (Step 2).
3. Now pass Ring 1 out by cutting through the 2 points.
4. Now Ring 1 should come off.

**To Reattach**

Make the reversed steps of the above.

Ring 1 Ring 2  
ENJOY!
