

Joyful Ornament

Parent supervision is recommended.

Use the diagram on the right as reference while constructing your 3-D Wood Puzzle. Pieces are numbered for your reference. Part 1 will attach to part 1, part 2 will attach to part 2 and so on. Using the photo as reference will also help.

Some pieces may need sanding to fit. If joints are too tight, do not force the pieces together. Simply use the included piece of sandpaper to loosen the fit. It is recommended you sand along the edge of the puzzle piece, not cross-wise against the edge.

Some pieces may be a bit loose and will require a drop or two of glue* to hold the pieces together.

*Glue is not included.

Assembled Dimensions: 4" x 4" x 7"

Piece Count: 13
